

Third Group Will Report Next Week

Board Orders Another 120 Registrants to Appear For Examination.

THIS WILL MAKE 372 CALLED

Sixteen of the Twenty Examined This Morning Are Passed as Physically Fit.

PER CENT OF UNFIT SMALLER

However, Large Number Continue to File Exemptions—Only 35 to be Examined Today.

With 323 At Both Ends Of The Line Manilla Man Could Not Escape

A peculiar circumstance was noted today when the third group of registrants was called up for examination next week. It was discovered that the serial number and the number of appearance in the county of Charles Roscoe Fisher of Manilla was 323. With such a number at both ends of the line he could hardly escape the draft. This is the only instance of the sort in the county.

There appeared to be little chance today that Rush county's quota for the new national army would be obtained from the second call of 120 men, despite the fact that the percentage of physically unfit is smaller for the second call than the first. The large number of exemptions filed is almost staggering and if all were acted on favorably it would require several more weeks before the county obtains its quota of sixty-six men.

The board today called up 120 more men for examination the first three days of next week, forty to report each day. This takes the men from the 253rd position in the county to the 372nd, meaning that by Wednesday night of next week the first 372 men called in the county will have been examined.

The board examined twenty men up until noon today and accepted sixteen of this number. Of the sixteen men eligible for military service all but six had filed claims for exemption and some of these six men expected to either file their claims this afternoon or tomorrow, which is the final day.

The board originally had forty men to be examined today. Three of the first five men called are already in the military service of the country and two more were in the list who have enlisted. This meant that only a total of thirty-five were to be examined today. The record of sixteen out of the first twenty examined being passed was even better than that of yesterday. The board expected to complete today's examinations by mid-afternoon.

The following men were accepted by the board this morning: Howard L. Cale, Rushville; William L. Reineau, Carthage; Leonard Barlow, Milroy; Russell Phelps, Carthage; Everett Bottorff, Milroy; James A. Alzman, Arlington; Gurney O. Handy, Rushville; Carl Ging, Mays; Eugene Cox, Carthage; William T. E. Ruble, Milroy; Frank McColley, Rushville; John E. C. Moore, Milroy; Chase Guffin, Glenwood; Isaac Baker, Glenwood; Liford Watkins, Carthage.

The four men discharged were: Frank Hill, Carthage; Leonard McConnell, Carthage; Charles L. Stout, Rushville; Wayne R. Addison, Dunreith.

ination the board found that eight men had passed and filed no claims; twenty were accepted who claimed exemption and nine men were discharged. A total of thirty-seven were examined.

One man called for yesterday is a member of Company B. Another is in South Dakota and has made arrangements to take the examination there. The third man resides in Elwood and will likely get permission to take his examination in that city.

Of the eight men accepted who filed no claims some may file with the district board, but this is not certain. The board believed that every man filed a claim who had the slightest chance of escaping military service.

One boy who passed the physical examination wanted to go and refused to file a claim. His mother, however, thought differently about the matter and filed a claim for her son. The boy was Virgil E. Simmermann. This is the first case in which someone other than the man himself has filed the claim.

One of the men accepted yesterday, Lindley H. Clark of Carthage, has been accepted for the second officers training camp and will count as one towards the county's quota of 66.

Additional 120 Called By Board To Be Examined

The local board believing that the second call for men would be exhausted before the county's quota of 66 men was obtained, today issued the third call for men. The men are to report next Monday, Tuesday and Wednesday in installments of forty. The board believes the quota will be obtained before all of these men are used. The third installment of men was obtained by continuing down the conscription list where the second call left off. The letters notifying the men will be in the mail tomorrow. The official list of those to report next week follows:

REVENUE BILL AT LIBRARY

Left in Public Place so That All May Consult It

Fon Riggs has received a copy of the war revenue bill as agreed on by the conference committee and introduced in the senate. The bill affects the corporate interests of many Rushville firms and as there is only a limited supply of the copies of the bill Mr. Riggs has placed his copy in the library where anyone interested can find it.

BENEDICT MAKES APPEAL FOR PEACE

Pope Forwards Specific and Concrete Conditions to Rulers of All Nations as Basis

RESTORE CONQUERED STATES

U. S. Officials See in Move Influence of Benedict's Recent Conference With Austrian Ministry

(By United Press.)

Rome, Aug. 14.—Specific and concrete conditions which his holiness Pope Benedict believes may form the basis of a world peace has been forwarded to the rulers of all nations. These conditions make a new and general appeal for the restoration of peace.

The appeal is addressed to all neutrals as well as belligerents. It is understood to be somewhat general in form but of such a nature as to form the ground work for more detailed discussion. The desire of his holiness is understood to be to furnish some common ground for discussion through a preliminary understanding. Broadly, it is understood, the condition proposed by the pope would include the restoration of all conquered independent states and an adjustment of control for all territory in dispute or likely to afford cause for a future war.

Restoration of all conquered independent states would include Belgium, Roumania and Serbia. Adjustment of control of territory in dispute or offering a possible cause for a future war would include Alsace and Poland and the

TRIES TO LEARN TIME OF CO. B'S DEPARTURE

Capt. Kiplinger Goes To Indianapolis Today For Conference With Col. Moorehead.

VICTROLA AT CAMP WOLFE

Camp Edward H. Wolfe, Aug. 14.—Capt. Kiplinger was in Indianapolis today for a conference with Col. Robert A. Moorehead, commanding the Fourth Regiment, in an effort to obtain, if possible, some information concerning the moving of Company B. The company is to precede the regiment to Hattiesburg, but no definite time has been set and Capt. Kiplinger would like to obtain some idea of when the company is to move.

The men were put through the regular movements today, including a hike into Rushville this morning. Most of the men have recovered from the effects of the vaccinations. George C. Wyatt and Company has loaned the company a Victrola and the men get much enjoyment during the evening hours. A few more records would be appreciated by the boys. Fresh supplies of vegetables are received every day through donations and the officers hope they will continue. Supplies left at the sheriff's office are taken to the camp every day.

DONATE HALL FOR SOLDIERS DINNER

Knights of Pythias Offer Use of Their Place for Farewell "Spread" For Volunteer Units

TO BE HELD FRIDAY EVENING

Chickens And Other Things Required Must be Donated by Housewives of Rush County

The Knights of Pythias lodge at its regular meeting last night voted to donate the use of the lodge hall for the fried chicken dinner which will be served to the members of Company B and the sanitary detachment next Friday evening as a part of the farewell being arranged for the two volunteer military organizations.

The original plans called for a meeting on the court house lawn Friday afternoon to be addressed by some man of prominence, probably Governor Goodrich if he can come, but the committee felt that the men in khaki should have something of a more substantial nature by which to remember Rush county.

It was first suggested that a fried chicken dinner be served to the men in the court house corridors, but it would have been inconvenient because there is no equipment for preparing a meal in the court house. But the Knights of Pythias solved the problem by offering their hall, which has all the necessary utensils for preparing a meal.

The fried chicken dinner must come from the homes of Rush county and must be prepared by the women of Rush county. The chickens will all have to be donated. They will be accepted by the committee either alive or dressed. Those who wish to donate chickens should notify Will M. Bliss at Bliss and Cowling's store, who is general chairman, and he will tell them where the chickens may be left.

Committees were announced by the general chairman as follows:

Finance—Earl Osborne, Horatio Havens, Ab Denning and Floyd Hogsett; decorations—Charles A. Frazee, Bruce Beck, and Walter Hubbard; arrangements—Fon Riggs, Will M. Frazee and G. P. Hunt; publicity—R. E. Mansfield, E. B. Thomas, R. E. Harrold and R. W. Noyer.

Every merchant is very urgently requested to decorate for the occasion and make it a gala affair. "Send them away smiling," will be the motto of the whole undertaking. Every effort will be made to convey to the men the good cheer that Rushville wants them to feel when they depart. All stores will be closed during the program on the court house lawn.

NOMINATES NEW OFFICERS

Wilson Sends to Senate Many Names For Confirmation.

(By United Press.)

Washington, Aug. 14.—The president today sent to the senate the names of thirty-seven new major generals and 141 brigadier generals. The list of those named to be major general included the name of Edwin F. Glenn, commandant at Fort Benjamin Harrison. Col. Edward M. Lewis, Forty-fifth Infantry, who will command the Indiana state troops, was made a brigadier general.

WOMEN OF COUNTY WILL BE ENROLLED

Cards Distributed Among Tri Kappas, Who Will Canvass City, and Township Chairwomen

NO OBLIGATION IN SIGNING

Cards Will be Used for Reference so Women May be Called on in Cases of Emergency

This week or next every woman in Rush county will have the opportunity to enroll for service during the war. Mrs. A. L. Stewart, chairwoman of the women's division of the County Council of Defense, has the work in charge.

The nation-wide plan was to have every woman in the United States enrolled by August 15, but the cards were late in arriving here and the work has just been started.

The members of the Tri Kappa sorority have consented to canvass Rushville to enroll the women of the city and the cards were sent out this morning to the various township chairwomen of the county defense body who will see that they are distributed in their respective townships. The cards were distributed among the Tri Kappas at their meeting yesterday afternoon and the city was districted for canvassing purposes.

It is explained that women need have no fear in signing one of the cards because they do not obligate themselves in any way in so doing. The purpose is merely, as the cards briefly state: "To co-ordinate and standardize the work of women of Indiana along lines of constructive patriotism, this effort is being made to secure the registry of the women who are ready to volunteer their services in time of emergency."

In signing one of the cards, no woman pledges herself to do any given thing. She is merely asked to answer questions asked her so that the Indiana League for Women's Service, which is a part of the State Council of Defense and is co-operating with the National League for Women's Service, may know when the emergency arises where the women to do certain things may be found. The women will signify on the cards what they are best able to do and then if the emergency arises, they will be asked to do those things. But the signing of the card now does not make the women subject to call in any sense of the word. Whatever will be done will be purely voluntary.

When the county has been thoroughly canvassed, the cards will be returned to Mrs. Stewart and she in turn will send them to the Indiana League for Women's Service in Indianapolis where they will be card indexed for future reference.

The cards have blanks to be filled in giving the date, name, address, telephone number, age, nationality of mother and father, names of any member of the family in the army or navy, educational qualifications, experience either in paid or voluntary positions, present occupation and whether or not the woman is engaged actively in Red Cross, French Relief or Navy League work.

On the reverse side of the card are a number of blanks which may be checked to designate the service for which the woman is best fitted to render.

The first division of this part of the card is social and welfare work and its subdivisions are: factory inspection, social club work, co-operating in caring for families of militiamen by visiting and investigating and housing or feeding.

The other divisions are:
2 Commissariat—(a) cooking; (b), purchasing.
3 Agriculture—(a), gardening; poultry raising; (c), dairying.
4 Industrial—(a) shops; (b), factories.

Record Breaking Non-Stop Run

Successfully enduring one of the most gruelling and exacting tests to which an automobile was ever subjected, an OLDSMOBILE Model 37, six cylinder, stock car has broken all previous records for endurance and continuous high motor efficiency.

For 47 consecutive days and nights, it was mounted on jacks and harnessed to a 17-kilowatt dynamo, giving the car a load equivalent to climbing a 10 1/2 per cent grade and requiring an actual and continuous expenditure of 22 horse power.

Mayor Curley, in the presence of a host of newspaper men and official observers, pressed the starter and threw the clutch that marked the beginning of the unprecedented run.

Staged in the spacious show windows of the Oldsmobile Company of New England, at Boston, Mass., the car patiently plodded along without a single stop, for 1128 hours, running 26,149 miles, at an average speed of 23.17 miles per hour, and traveled 22.49 miles per gallon. It was a regular stock model, a new car, and was without special adjustment.

A flood of light generated by the dynamo demonstrated day and night that the car was doing its work. When the best previous non-stop record had been eclipsed by 4,127 miles, the car was stopped by the official observers. The run attracted scores of technical men and expert mechanics, who showered the Oldsmobile distributors with compliments on the brilliant achievement, which added such a remarkable triumph to the laurels of the Oldsmobile Six.

PROPOSE NEW WAY TO PAY FOR WAR

3 Members of Finance Committee Urge Conscription of Wealth and Munitions Earnings

PRESENT BILL IS FAULTY

They Declare it Will Only Raise Half Enough to Meet Government Needs Fiscal Year

(By United Press.)

Washington, Aug. 14.—Conscription of wealth to pay for the war and conscription of the earnings of munitions workers are urged in a report to the senate today by three members of the finance committee who disagree with the revenue raising methods proposed in the pending \$2,000,000,000 war tax bill.

The report, signed by Senators LaFollette, Wisconsin; Gore, Oklahoma and Thomas of Colorado, was presented by them when the senate resumed discussion of the bill today. The minority report asserts that the sum the committee bill proposes to raise is only half enough to meet governmental need for the present fiscal year.

The committee bill, says the minority, would leave the country without a sound policy for financing the war.

An amendment to the committee bill to bring the war profit tax up to 75 or 80 per cent will be submitted by LaFollette. He will also introduce an amendment to increase the income schedules and will seek to strike out of the committee bill sugar, tea, coffee and other things which directly effect the consumer.

territory including Trieste and Trent which has long been the cause of hostile feeling between Austria and Italy.

NO COMMENT AT WASHINGTON

(By United Press.)

Washington, Aug. 14.—The state department heard from confidential sources today of the pope's peace offer but the actual proffer had not been received, it was stated. Secretary of State Lansing declined to make any comment.

The United States government is prepared to listen to any bona fide peace offer but it must insure consummation of America's objects for entering the war.

The officials saw in the pope's move the influence of his recent conference with the Austrian ministry who were afterward closeted with the German chancellor in Vienna.

UNCLE SAM'S THRIFT THOUGHT FOR TODAY

A large amount of good food in potatoes including most of the valuable mineral elements, is wasted by ordinary methods of peeling. Baking "in the jackets" also means a loss (if the jacket is not eaten) since much of the meat of the potatoes sticks to the stiffened skin and is discarded. Here is a suggestion made by the United States Department of Agriculture for reducing the discarded portion of the potato to a minimum:

"Drop washed potatoes in a vessel of rapidly boiling water and allow them to remain 10 minutes. Remove and strip the thin skin as when potatoes are peeled after thorough cooking by boiling. The potatoes will still be practically raw and may be handled like raw peeled potatoes in preparing any dish, as scalloped, French or German fried potatoes, potato chips, etc.

"One excellent way to cook the skinned potatoes is to bake them. The entire potato, including the thin, golden brown crust may be eaten."

This recipe for economical peeling of potatoes was furnished by a housewife and tested by the United States Department of Agriculture. The Department will be glad to have other housewives write of thrift practices which they have found useful in their homes.

The Globe Ear Phone is a new hearing device recently perfected—an achievement which is the result of years of research work in acoustics. This wonderful little Ear-Phone enables most deaf people to hear sounds in a distinct and natural manner—it may be said to actually recreate sound. Those afflicted with deafness will welcome the new Globe Ear Phone and so will their friends.

MEN COMMISSIONED
TO BE ASSIGNED NOW

Rushville Members of First Training Camp May Not Get to Come Home for Vacation

FEW LIKELY TO GET A LEAVE

The men from here who received commissions in the first officers training camp at Fort Benjamin Harrison, which closes tomorrow, may not get their twelve days vacation before being assigned to active duty. Brigadier-General Edwin F. Glenn, commanding at the camp, received orders yesterday to proceed at once to the assignment of posts of duty of the men who received commissions as officers in the United States army reserve and the national army. This means that the new army officers are to be definitely assigned to battalions and companies in the new army units that are to be mobilized at Louisville, Ky.

The Rushville men who received commissions had expected to return home tomorrow for a brief rest, but few if any of them will get a leave. A ceremony had been arranged for tomorrow, at which time it was planned to swear in the new officers and present them with their commissions. Instead, the commissions are being presented and the men sworn in small units.

FIRST RELIGIOUS SERVICE

Four Officers of Sanitary Detachment Are There—Given Two Vaccinations Monday

Word has been received here of the daily routine of the Fourth Regiment of the Indiana National Guard, which is mobilized at the state fair grounds, with the exception of a few units, including the sanitary detachment and Company B, which are stationed here for the present. Four officers of the sanitary detachment have been at the fair grounds since last Saturday, when they received orders from the central army division headquarters at Chicago to report at once.

The men had their first chapel exercises Sunday when the chaplain of the regiment, Lieutenant Brundage of Anderson, preached his first sermon at the Coliseum. The infantry companies and cavalry troops held a short drill before the religious services.

The men stationed at the fair grounds comprise the following units: Infantry companies D, K and L. Cavalry troops B and C. Company A of the Signal Corps, Headquarters company, Supply company and the field hospital unit attached to the First Squadron of cavalry. The men were given the smallpox vaccination and typhoid serum yesterday.

The daily schedule of the Fourth Indiana is as follows:

Provost Marshal's Threat

The provost marshal at Washington in charge of the draft has practically threatened to make exemption rules more stringent if there are not fewer unfounded claims for discharge.

"This state of affairs," he says, referring to the fact that as high as 80 per cent of the registrants are asking discharge on the grounds of dependents, "greatly increases the burden of the local boards for, if so high a percentage of registrants claim exemption, only the uncompromising action of the local boards can prevent a new regulation on the subject of dependency which shall reduce discharges for dependency to a far more restricted class and to very necessities and clearly defined circumstances."

In other words, the men who are really entitled to discharge on the ground of dependents, according to the present interpretation of the regulations, will have to suffer in the future for the wrongs of those who have no claim for discharge. The statement is in the nature of a threat. "It is thus apparent," says the provost marshal, "that the filing of these improper claims will react directly and injuriously on persons whom the present regulations were designed to protect, and that the welfare of persons who have filed bona fide claims under the present generous clauses of the regulations is seriously imperiled by persons who have filed claims without merit, and that the only protection of persons whose cases are within the meaning of the present rules lies in the power of the local boards to refuse exemptions in every doubtful case."

Additional instructions received yesterday, however, disclose that the registrant refused an exemption has recourse before the district board, not only for a rehearing of his own case, but to reopen the case of another discharged before him whose claim he believes to be unjust. This is perfectly fair and impartial. There may be many a man refused a discharge who believes with all his heart and soul that another man who was exempted had no more right to a discharge than he.

There should be no criticism of the local selection board. Before giving voice to any adverse opinions you may have, it is the duty of every loyal citizen to place himself in the position of the selection board. It should be reasoned out that the boards have very solemn obligations which they have given oath to perform. Their decisions must be coldly impartial. They can not be otherwise else they will be violating the spirit of patriotic fairness which demands that the conscription law

be enforced without any fear, with a justice that knows no favoritism and is deaf to all pleas.

It is very essential that the labors of the board be lightened rather than made irksome by irritating remarks. They are not the authors or the interpreters of the law. Their work is largely mechanical in following certain set lines which have been laid down for them. They are performing a patriotic service for the country in acting in the capacity they are. It is nothing less than the greatest patriotism to help the selection board in every way possible and do nothing to hinder it.

It is the popular pastime of some newspapers to "jump on" congress. They know it is safe because congress is a body of men without a spokesman and that there is no liability of "backfire." Their favorite sport is criticizing congress for being slow to enact war measures. Congress is supposed to be and should be a deliberative body. It is composed of men elected by the people who expect the most judicious and wise action on all legislation. In such a stupendous task as the United States is now engaged, it is not so much haste that is desired, although haste is needed if not at the expense of the thing to be accomplished, but a steadfastness of purpose and a determination to enact measures that will best enable the United States to win the war. Such things can't be done overnight.

Henry Clews, the New York financial authority, sees a sound financial situation and great industrial activity arising from war expenditures of \$10,000,000,000 or more. That 10 billion ought to make someone active in the scramble to get a share of it.

War hasn't all been transferred to the trenches. It still rages over the back fence.

SOCIALISTS TO BE DENIED PASSPORTS

Allied Nations Will Not Permit Them to Attend Peace Conference at Stockholm Next Month

KERENSKY IS OPPOSED TO IT

(By United Press.)

London, Aug. 14.—The allied nations have agreed that no passports shall be issued to socialists desiring to attend the international conference, scheduled in Stockholm next month, at which time peace was to be discussed. Bonar Law, chancellor of the exchequer in the house of commons announced the United States, France and Italy had agreed with England that passports permitting attendance at the conference would be withheld.

Invitations to the conference were originally issued in Russia but Premier Kerensky has declared opposition to the session. Whether passports will be given Russian delegates is not known. Arthur Henderson, who resigned as labor member of the British cabinet, as a result of his activities regarding the conference, severely arraigned Premier Lloyd George in a personal statement in the commons. Henderson charged the war cabinet with double dealing, and especially in connection with his visit to Paris.

SAMMIES TO HAVE BRAIN SPECIALISTS

Cantonment Camp For New Army Will Be Under Direction of Surgeon General Gorgas

'QUITTERS' TO GET TREATMENT

His Plans Call For The Enlisting of 25,000 American Physicians Within 12 Months

By GEORGE MARTIN
(U. P. Staff Correspondent.)

Washington, Aug. 14.—The draft Sammies will take their own brain specialists right along with them when they go to France.

That was one of the things Surgeon General Gorgas made clear today when he told how Sammie's aches, pains, wounds, germs and brainstorms will be taken care of.

As for germs, the General is going around to every one of the cantonment camps in this country and tack up one of his well known and effective "No Admittance" signs.

It was Gorgas, who drove the yellow jacket out of the South, made the Canal zone safe for ditch diggers and put the finishing touch on the bubonic plague rats of New Orleans. He is now in supreme command of America's surgical and medical war plans for the Sammies at home and abroad.

"We intend to make our military cantonments as safe as medical science knows how," he said today.

"We have put the best brains of the country on the job. We have organized a staff that you couldn't equal in any ten hospitals in the United States."

There will be specialists on everything. Major J. E. Goldthwait, for instance, the wizard of bones and joints. The Mayo brothers of Rochester, Minn., are Majors under Gorgas, too.

Regarding mental disorders among the men, which he characterizes as "very common in this way," General Gorgas said:

"We will take special care of these. Dr. Pearce Bailey is working on that in our department with the rank of Major.

"Mental troubles are among the most common to be dealt with in the modern armies. So much so that European hospitals have had to specialize in them.

Shell shock, of course, requires scientific treatment. The best results are obtained when the patient is kept under observation without sound of the gun.

"It used to be that a coward or a quitter was rewarded with a kick or given heroic treatment in the guard house. Our prevailing practice, as is the case in all modern armies, will be in the majority of cases to give the needed mental and medical treatment to these men who can't live up to their duties as soldiers."

General Gorgas' plan called for the enlisting of the services of 25,000 American physicians and surgeons within the next 12 months.

Here's Where The Fun Comes In

He Couldn't Understand

A few days ago the sanitary detachment was at a public gathering and the little son of one of the officers of the detachment saw his father.

"Mother, can't I go stand with daddy?" the little boy asked.

"You had better not," replied mother, not quite sure about military discipline which is all so new to Americans.

"But I would like to know why I can't go stand by my OWN daddy," insisted the little boy.

That was enough. The mother told him to go ahead, discipline or no discipline.

AMERICAN COAL MINERS NEEDED

Lens Will Fall Sooner or Later And Then France Will Find Use For This Class of Labor

DEPRIVED FOR THREE YEARS

Is One of the Richest Deposits France Possesses—Must Re-build Shafts

By WILLIAM PHILIP SIMMS
(U. P. Staff Correspondent.)

With the British Armies in the Field, July 25 (By Mail)—Sooner or later Lens, capital of France's "Black Country" or coal belt, will fall before the ever-tightening pressure put upon it by Sir Douglas Haig. When this day comes America can render France and her allies no greater service than to send immediately to this region the experts necessary to put the coal mines in order in the shortest possible time.

For three years France has been deprived of the richest coal deposits she possesses. In the Loire, Burgundy, Nivernais, Gard, Blanz, d'Aubin, Decazeville and Carmaux, it is true there are coal mines but these are not to be compared with those in the northern part of the country, around Lens. This deposit runs from east to west, from Belgium to Flechinelle, in France and since the German occupation it is only the extreme western end of it which the French have been able to work. And this is the hardest to work, being deep below the surface. Whereas in Belgium the coal is practically on top of the ground, at Anzin it is 120 feet down and deeper the further west it runs. At Douai it is 480 feet deep; at Flechinelle about 1,800 feet.

The vein of coal from the Belgium frontier to Flechinelle is about 65 miles long by 10 miles wide. Prior to the war of the 39 millions of tons extracted from French soil, three-fifths came from here or about 25,000,000 tons. Even with this, France has always been compelled to buy from the outside almost as much coal again as she produced, half of which came from Belgium—from the country around Mons, Charleroi and Liege, seized by Germany as her very first act of war.

It is this country, around Lens and behind Lens to the east, which the Prussian warlords are defending regardless of the cost of German lives. And here it is that British pressure is growing ever stronger. Every blow struck this summer has yielded a net gain in the direction of these coal fields and a retirement anywhere from Arras to the sea would be more injurious to Germany from an economical point of view than at any other part of the Western front.

Fighting in this country is extremely difficult. On the sea where British Tommies have recently made their appearance, there are sand dunes which make trenches almost impossible. Fighting there is like fighting in the heart of the Sahara Desert. Further south along the line is water, water everywhere, spread out over the flat country. Everybody knows what the country about Ypres is like, and around Messines Ridge while below that comes La Bassée and Lens, with their mountains of slag and cinders, called "Crassiers" rising nearly 200 feet over the level country around about; and the "fosses" or mines, with mining buildings cluttered about them, all affording the best possible obstacles from the defender's viewpoint, hiding field guns, howitzers and especially machine guns.

Such is the country over which the British are now fighting. If the Germans are beaten back out of the coal country they will do as they have done already at Lens: Destroy the mines by blowing them up or flooding them, or both. But American miners are said to be the best to be had and certainly the United States can do better than to send hundreds of them over here to reclaim the ruins for even if the Prussians do their work so completely as to render the mines useless for the remainder of the war, reconstruction of France and Belgium will depend largely on fuel supply.

WAR WORRY WORN WELL BY WILSON

President Keeps Himself Fit By Regular Play On Golf Links And Mild Exercise

HE ALWAYS ARISES EARLY

Has Plenty of Cares And Burdens But He Is Not Breaking Down Under Them

By GEORGE MARTIN
(U. P. Staff Correspondent.)

Washington, Aug. 14.—If you have pictured President Wilson careworn, haggard and breaking under the strain of his tremendous war problems, change the portrait. It's 'way wrong.

On one of his unannounced strolls from the White House to Secretary Baker's office in the State War & Navy building he gave press men an opportunity for a good close-up of Woodrow Wilson in war mood.

Swinging out from Baker's room and down the tiled corridor, the President had more the manner of a man who had just concluded a pleasant chat with an old orony about nothing in particular, than of a nation's leader who had just discussed a vital world problem whose solution he must find.

Clad in snowy linen coat and trousers, a flat-topped, broad-brimmed straw hat set squarely on his head, the President moved at a brisk pace toward the stairway. There was spring in his step. His smile was genial, his cheeks ruddy with the glow of health.

Realizing the vital importance of keeping himself fit, the President is exceedingly careful to play with his work.

Early every morning, long before most Washingtonians are so much as turning over for their pre-getting-up nap, the President is out in his knickerbockers and off around the golf course. Mrs. Wilson usually accompanies him. A couple of hours later they may be seen rolling into the White House grounds in one of the big cars with the golden spread eagles in a circle on the door panels.

Golf, walking and other mild forms of exercise take care of the President's physical health. For mental diversion and rest he turns from the problems of war to intricate, complex and quite thrilling detective stories.

Most of his newspaper reading is done for him by Secretary Tumulty. Thousands of papers from all over the country are carefully gone over for news of interest to the White House; and whatever is deemed sufficiently important to bring to the President's personal attention he gets in the form of pasted up clippings at the proper time.

He has cares and worries and burdens galore, has the President, but he isn't breaking down under them.

PURCHASING BOARD TO MEET

J. L. Cowing has received word that a meeting of the joint-purchasing board, which was appointed by Governor Goodrich to buy all supplies for all the state institutions, would meet at the state house Thursday morning at ten o'clock. Mr. Cowing is a member of the committee. A sub-committee was recently appointed to investigate about the purchase of coal, beef and flour and Mr. Cowing presumes that this committee will report Thursday.

Society

Eighteen members and one pledged member, Mrs. Charles Wilson, of the Tri Kappa sorority were entertained by Mrs. Earl C. Moore, yesterday afternoon at her home in North Harrison street. During the afternoon the members made utility kits for the soldiers, and a short program was given including one of a series of papers on "Indiana," which was read by Mrs. Moore. A short business session was also held and cards were distributed among the girls, who will canvass the city and have housewives, who are willing to offer their services in cases of emergency, sign them. The afternoon was concluded by the service of dainty refreshments. Miss Mary Anderson will be hostess to the society in two weeks.

FLOWER OF GUARD GOES ABROAD NEXT

"Rainbow Division," 19,000 Strong, Including First Indiana Artillery, Will Soon be Sent.

COMPRISE OF 42 DIVISIONS

First Indiana Made Up of Bloomington, Lafayette, 2 Indianapolis And 2 Fort Wayne Batteries

(By United Press.) Washington, Aug. 14.—America's "rainbow division"—19,000 strong—will be the next to see service in France.

Comprising national guardsmen representing states from New York to Texas and California, the new forces will soon be sent abroad.

The 150th Field Artillery (First Indiana Artillery) National Guard will be part of the division, the war department announced today. The new forces comprise the 42 divisions assembled under the recent reorganization plan. It represents the flower of guard troops from all parts of the country, including cavalry, infantry, engineers, machine gun and artillery companies—hence the name "rainbow division."

Major Douglas MacArthur, engineer, former press censor, will be chief of staff of the the "rainbow division."

Brigadier General W. A. Mann, chief of the militia bureau, has been selected as the division commander. The troops in the division will be drawn from twenty-six states and the District of Columbia.

TYNDALL HEADS HOOSIERS

Indianapolis, Ind., Aug. 14.—The First Indiana Field Artillery is commanded by Col. Robert H. Tyndall of Indianapolis. It is made up of Battery A, Indianapolis; Battery D, of Fort Wayne and Battery C, of Lafayette, forming the first battalion of which Maj. Guy A. Wainwright is commander.

The second battalion, commanded by Major Solon J. Carter, is composed of Battery B of Fort Wayne, Battery E of Indianapolis, and Battery F of Bloomington.

About 1,225 Indiana troops, including officers, are affected by the order. These troops are now mobilized at Fort Benjamin Harrison. The Indiana troops have been pronounced by military officials as equal to the best in the country.

Mr. and Mrs. William Keck entertained the Misses Sadie, Maggie and Anna Gilson and Mr. and Mrs. James Worth and daughter Leah at dinner today, in honor of William Worth, who is a member of the sanitary detachment.

The B. Y. C. D. class of the First Baptist church will hold their regular business meeting at the church tonight. All members are urged to attend.

The Loyal Women's Bible class of the Main Street Christian church will have their regular meeting tomorrow evening at 7:30 in the parlors of the church.

Miss Mary Amos will be hostess to the members of the S. E. T. Embroidery club, Thursday afternoon at her home in North Perkins street.

Mrs. George Looney will entertain the members of the Happy-Go-Lucky club, Thursday afternoon at her home in North Main street.

The Misses Harriet Smith and Phyllis Dean have returned from Indianapolis, where they attended a house party.

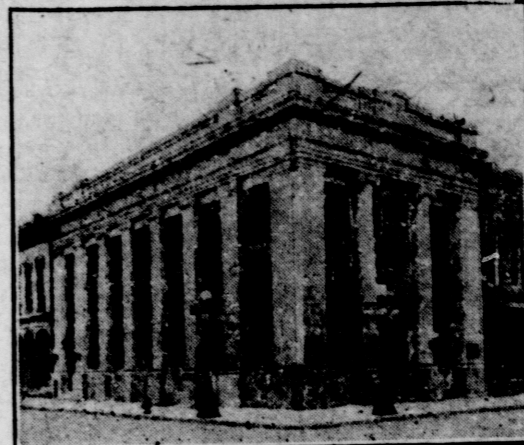

The Lower family reunion will be held Sunday, August 19 at the home of Thomas W. Lower, southwest of this city.

The Emanon club will meet with Mrs. Derby Green, Thursday afternoon at her home in North Main street.

Third Group Will Report Next Week

Board Orders Another 120 Registrants to Appear For Examination.

THIS WILL MAKE 372 CALLED

Sixteen of the Twenty Examined This Morning Are Passed as Physically Fit.

PER CENT OF UNFIT SMALLER

However, Large Number Continue to File Exemptions—Only 35 to be Examined Today.

With 323 At Both Ends Of The Line Manilla Man Could Not Escape

A peculiar circumstance was noted today when the third group of registrants was called up for examination next week. It was discovered that the serial number and the number of appearance in the county of Charles Roscoe Fisher of Manilla was 323. With such a number at both ends of the line he could hardly escape the draft. This is the only instance of the sort in the county.

There appeared to be little chance today that Rush county's quota for the new national army would be obtained from the second call of 120 men, despite the fact that the percentage of physically unfit is smaller for the second call than the first. The large number of exemptions filed is almost staggering and if all were acted on favorably it would require several more weeks before the county obtains its quota of sixty-six men.

The board today called up 120 more men for examination the first three days of next week, forty to report each day. This takes the men from the 253rd position in the county to the 372nd, meaning that by Wednesday night of next week the first 372 men called in the county will have been examined.

The board examined twenty men up until noon today and accepted sixteen of this number. Of the sixteen men eligible for military service all but six had filed claims for exemption and some of these six men expected to either file their claims this afternoon or tomorrow, which is the final day.

The board originally had forty men to be examined today. Three of the first five men called are already in the military service of the country and two more were in the list who have enlisted. This meant that only a total of thirty-five were to be examined today. The record of sixteen out of the first twenty examined being passed was even better than that of yesterday. The board expected to complete today's examinations by mid-afternoon.

The following men were accepted by the board this morning: Howard L. Cale, Rushville; William L. Reenan, Carthage; Leonard Barlow, Milroy; Russell Phelps, Carthage; Everett Bottorff, Milroy; James A. Alsmann, Arlington; Gurney O. Handy, Rushville; Carl Ging, Mays; Eugene Cox, Carthage; William T. E. Ruble, Milroy; Frank McColey, Rushville; John E. C. Moore, Milroy; Chase Giffin, Glenwood; Isaac Baker, Glenwood; Liford Watkins, Carthage.

The four men discharged were: Frank Hill, Carthage; Leonard McConnell, Carthage; Charles L. Stout, Rushville; Wayne R. Addison, Danreith.

In checking up yesterday's exam-

ination the board found that eight men had passed and filed no claims; twenty were accepted who claimed exemption and nine men were discharged. A total of thirty-seven were examined.

One man called for yesterday is a member of Company B. Another is in South Dakota and has made arrangements to take the examination there. The third man resides in Elwood and will likely get permission to take his examination in that city.

Of the eight men accepted who filed no claims some may file with the district board, but this is not certain. The board believed that every man filed a claim who had the slightest chance of escaping military service.

One boy who passed the physical examination wanted to go and refused to file a claim. His mother, however, thought differently about the matter and filed a claim for her son. The boy was Virgil E. Simmermann. This is the first case in which someone other than the man himself has filed the claim.

One of the men accepted yesterday, Lindley H. Clark of Carthage, has been accepted for the second officers training camp and will count as one towards the county's quota of 66.

STATE OF WAR DECLARED

China Declares One Existing With Germany and Austria.

Washington, Aug. 14.—China declared a state of war against Germany and Austria-Hungary beginning at 10 a. m. today, the Chinese legation was informed in a cable from Peking this afternoon.

Additional 120 Called By Board To Be Examined

The local board believing that the second call for men would be exhausted before the county's quota of 66 men was obtained, today issued the third call for men. The men are to report next Monday, Tuesday and Wednesday in installments of forty. The board believes the quota will be obtained before all of these men are used. The third installment of men was obtained by continuing down the conscription list where the second call left off. The letters notifying the men will be in the mail tomorrow. BENEDICT MAKES APPEAL FOR PEACE

Pope Forwards Specific and Concrete Conditions to Rulers of All Nations as Basis

RESTORE CONQUERED STATES

U. S. Officials See in Move Influence of Benedict's Recent Conference With Austrian Ministry

(By United Press.)

Rome, Aug. 14.—Specific and concrete conditions which his holiness Pope Benedict believes may form the basis of a world peace has been forwarded to the rulers of all nations. These conditions make a new and general appeal for the restoration of peace.

The appeal is addressed to all neutrals as well as belligerents. It is understood to be somewhat general in form but of such a nature as to form the ground work for more detailed discussion. The desire of his holiness is understood to be to furnish some common ground for discussion through a preliminary understanding. Broadly, it is understood, the condition proposed by the pope would include the restoration of all conquered independent states and an adjustment of control for all territory in dispute or likely to afford cause for a future war.

Restoration of all conquered independent states would include Belgium, Roumania and Serbia. Adjustment of control of territory in dispute or offering a possible cause for a future war would include Alsace and Poland and the

TRIES TO LEARN TIME OF CO. B'S DEPARTURE

Capt. Kiplinger Goes To Indianapolis Today For Conference With Col. Moorehead.

VICTROLA AT CAMP WOLFE

Camp Edward H. Wolfe, Aug. 14.—Capt. Kiplinger was in Indianapolis today for a conference with Col. Robert A. Moorehead, commanding the Fourth Regiment, in an effort to obtain, if possible, some information concerning the moving of Company B. The company is to precede the regiment to Hattiesburg, but no definite time has been set and Capt. Kiplinger would like to obtain some idea of when the company is to move.

The men were put through the regular movements today, including a hike into Rushville this morning. Most of the men have recovered from the effects of the vaccinations. George C. Wyatt and Company has loaned the company a Victrola and the men get much enjoyment during the evening hours. A few more records would be appreciated by the boys. Fresh supplies of vegetables are received every day through donations and the officers hope they will continue. Supplies left at the sheriff's office are taken to the camp every day.

DONATE HALL FOR SOLDIERS DINNER

Knights of Pythias Offer Use of Their Place for Farewell "Spread" For Volunteer Units

TO BE HELD FRIDAY EVENING

Chickens And Other Things Required Must be Donated by Housewives of Rush County

The Knights of Pythias lodge at its regular meeting last night voted to donate the use of the lodge hall for the fried chicken dinner which will be served to the members of Company B and the sanitary detachment next Friday evening as a part of the farewell being arranged for the two volunteer military organizations.

The original plans called for a meeting on the court house lawn Friday afternoon to be addressed by some man of prominence, probably Governor Goodrich if he can come, but the committee felt that the men in khaki should have something of a more substantial nature by which to remember Rush county.

It was first suggested that a fried chicken dinner be served to the men in the court house corridors, but it would have been inconvenient because there is no equipment for preparing a meal in the court house. But the Knights of Pythias solved the problem by offering their hall, which has all the necessary utensils for preparing a meal.

The fried chicken dinner must come from the homes of Rush county and must be prepared by the women of Rush county. The chickens will all have to be donated. They will be accepted by the committee either alive or dressed. Those who wish to donate chickens should notify Will M. Bliss at Bliss and Cowling's store, who is general chairman, and he will tell them where the chickens may be left.

Committees were announced by the general chairman as follows:

Finance—Earl Osborne, Horatio Havens, Ab Denning and Floyd Hogsett; decorations—Charles A. Frazee, Bruce Beck, and Walter Hubbard; arrangements—Fon Riggs, Will M. Frazee and G. P. Hunt; publicity—R. E. Mansfield, E. B. Thomas, R. E. Harrold and R. W. Noyer.

Every merchant is very urgently requested to decorate for the occasion and make it a gala affair. "Send them away smiling," will be the motto of the whole undertaking. Every effort will be made to convey to the men the good cheer that Rushville wants them to feel when they depart. All stores will be closed during the program on the court house lawn.

NOMINATES NEW OFFICERS

Wilson Sends to Senate Many Names For Confirmation.

(By United Press.)

Washington, Aug. 14.—The president today sent to the senate the names of thirty-seven new major generals and 141 brigadier generals. The list of those named to be major general included the name of Edwin F. Glenn, commandant at Fort Benjamin Harrison. Col. Edward M. Lewis, Forty-fifth Infantry, who will command the Indiana state troops, was made a brigadier general.

WOMEN OF COUNTY WILL BE ENROLLED

Cards Distributed Among Tri Kappas, Who Will Canvass City, and Township Chairwomen

NO OBLIGATION IN SIGNING

Cards Will be Used for Reference so Women May be Called on in Cases of Emergency

This week or next every woman in Rush county will have the opportunity to enroll for service during the war. Mrs. A. L. Stewart, chairwoman of the women's division of the County Council of Defense, has the work in charge.

The nation-wide plan was to have every woman in the United States enrolled by August 15, but the cards were late in arriving here and the work has just been started.

The members of the Tri Kappa sorority have consented to canvass Rushville to enroll the women of the city and the cards were sent out this morning to the various township chairwomen of the county defense body who will see that they are distributed in their respective townships. The cards were distributed among the Tri Kappas at their meeting yesterday afternoon and the city was districted for canvassing purposes.

It is explained that women need have no fear in signing one of the cards because they do not obligate themselves in any way in so doing. The purpose is merely, as the cards briefly state: "To co-ordinate and standardize the work of women of Indiana along lines of constructive patriotism, this effort is being made to secure the registry of the women who are ready to volunteer their services in time of emergency."

In signing one of the cards, no woman pledges herself to do any given thing. She is merely asked to answer questions asked her so that the Indiana League for Women's Service, which is a part of the State Council of Defense and is co-operating with the National League for Women's Service, may know when the emergency arises where the women to do certain things may be found. The women will signify on the cards what they are best able to do and then if the emergency arises, they will be asked to do those things. But the signing of the card now does not make the women subject to call in any sense of the word. Whatever will be done will be purely voluntary.

When the county has been thoroughly canvassed, the cards will be returned to Mrs. Stewart and she in turn will send them to the Indiana League for Women's Service in Indianapolis where they will be card indexed for future reference.

The cards have blanks to be filled in giving the date, name, address, telephone number, age, nationality of mother and father, names of any member of the family in the army or navy, educational qualifications, experience either in paid or voluntary positions, present occupation and whether or not the women is engaged actively in Red Cross, French Relief or Navy League work.

On the reverse side of the card are a number of blanks which may be checked to designate the service for which the woman is best fitted to render.

The first division of this part of the card is social and welfare work and its subdivisions are: factory inspection, social club work, co-operating in caring for families of militiamen by visiting and investigating and housing or feeding.

The other divisions are:
2 Commissariat—(a) cooking; (b), purchasing.
3 Agriculture—(a), gardening; poultry raising; (c), dairying.
4 Industrial—(a) shops; (b), factories.

Record Breaking Non-Stop Run

Successfully enduring one of the most gruelling and exacting tests to which an automobile has ever subjected, an OLDSMOBILE Model 37, six cylinder, stock car has broken all previous records for endurance and continuous high motor efficiency.

For 47 consecutive days and nights, it was mounted on jacks and harnessed to a 17-kilowatt dynamo, giving the car a load equivalent to climbing a 10 1/2 per cent grade and requiring an actual and continuous expenditure of 22 horse power.

Mayor Curley, in the presence of a host of newspaper men and official observers, pressed the starter and threw the clutch that marked the beginning of the unprecedented run.

Staged in the spacious show windows of the Oldsmobile Company of New England, at Boston, Mass., the car patiently plodded along without a single stop, for 1128 hours, running 26,149 miles, at an average speed of 23.17 miles per hour, and traveled 22.49 miles per gallon. It was a regular stock model, a new car, and was without special adjustment.

A flood of light generated by the dynamo demonstrated day and night that the car was doing its work. When the best previous non-stop record had been eclipsed by 4,127 miles, the car was stopped by the official observers. The run attracted scores of technical men and expert mechanics, who showered the Oldsmobile distributors with compliments on the brilliant achievement, which added such a remarkable triumph to the laurels of the Oldsmobile Six.

PROPOSE NEW WAY TO PAY FOR WAR

3 Members of Finance Committee Urge Conscription of Wealth and Munitions Earnings

PRESENT BILL IS FAULTY

They Declare it Will Only Raise Half Enough to Meet Government Needs Fiscal Year

(By United Press.)

Washington, Aug. 14.—Conscription of wealth to pay for the war and conscription of the earnings of munitions workers are urged in a report to the senate today by three members of the finance committee who disagree with the revenue raising methods proposed in the pending \$2,000,000,000 war tax bill.

The report, signed by Senators LaFollette, Wisconsin; Gore, Oklahoma and Thomas of Colorado, was presented by them when the senate resumed discussion of the bill today. The minority report asserts that the sum the committee bill proposes to raise is only half enough to meet governmental need for the present fiscal year.

The committee bill, says the minority, would leave the country without a sound policy for financing the war.

An amendment to the committee bill to bring the war profit tax up to 75 or 80 per cent will be submitted by LaFollette. He will also introduce an amendment to increase the income schedules and will seek to strike out of the committee bill sugar, tea, coffee and other things which directly effect the consumer.

territory including Trieste and Trent which has long been the cause of hostile feeling between Austria and Italy.

NO COMMENT AT WASHINGTON

(By United Press.)

Washington, Aug. 14.—The state department heard from confidential sources, today of the pope's peace offer but the actual paper had not been received, it was stated. Secretary of State Lansing declined to make any comment.

The United States government is prepared to listen to any bona fide peace offer but it must insure consummation of America's objects for entering the war.

The officials saw in the pope's move the influence of his recent conference with the Austrian ministry who were afterward closeted with the German chancellor in Vienna.

UNCLE SAM'S THRIFT THOUGHT FOR TODAY

A large amount of good food in potatoes including most of the valuable mineral elements, is wasted by ordinary methods of peeling. Baking "in the jackets" also means a loss (if the jacket is not eaten) since much of the meat of the potatoes sticks to the stiffened skin and is discarded. Here is a suggestion made by the United States Department of Agriculture for reducing the discarded portion of the potato to a minimum:

"Drop washed potatoes in a vessel of rapidly boiling water and allow them to remain 10 minutes. Remove and strip the thin skin as when potatoes are peeled after thorough cooking by boiling. The potatoes will still be practically raw and may be handled like raw peeled potatoes in preparing any dish, as scalloped, French or German fried potatoes, potato chips, etc.

"One excellent way to cook the skinned potatoes is to bake them. The entire potato, including the thin, golden brown crust may be eaten."

This recipe for economical peeling of potatoes was furnished by a housewife and tested by the United States Department of Agriculture. The Department will be glad to have other housewives write of thrift practices which they have found useful in their homes.

MEN COMMISSIONED TO BE ASSIGNED NOW

Rushville Members of First Training Camp May Not Get to Come Home for Vacation

FEW LIKELY TO GET A LEAVE

The men from here who received commissions in the first officers training camp at Fort Benjamin Harrison, which closes tomorrow, may not get their twelve days vacation before being assigned to active duty. Brigadier-General Edwin F. Glenn, commanding at the camp, received orders yesterday to proceed at once to the assignment of posts of duty of the men who received commissions as officers in the United States army reserve and the national army. This means that the new army officers are to be definitely assigned to battalions and companies in the new army units that are to be mobilized at Louisville, Ky.

The Rushville men who received commissions had expected to return home tomorrow for a brief rest, but few if any of them will get a leave. A ceremony had been arranged for tomorrow, at which time it was planned to swear in the new officers and present them with their commissions. Instead, the commissions are being presented and the men sworn in small units.

FIRST RELIGIOUS SERVICE

Four Officers of Sanitary Detachment Are There—Given Two Vaccinations Monday

Word has been received here of the daily routine of the Fourth Regiment of the Indiana National Guard, which is mobilized at the state fair grounds, with the exception of a few units, including the sanitary detachment and Company B, which are stationed here for the present. Four officers of the sanitary detachment have been at the fair grounds since last Saturday, when they received orders from the central army division headquarters at Chicago to report at once.

The men had their first chapel exercises Sunday when the chaplain of the regiment, Lieutenant Brundage of Anderson, preached his first sermon at the Coliseum. The infantry companies and cavalry troops held a short drill before the religious services.

The men stationed at the fair grounds comprise the following units: Infantry companies D, K and L. Cavalry troops B and C. Company A of the Signal Corps, Headquarters company, Supply company and the field hospital unit attached to the First Squadron of cavalry. The men were given the smallpox vaccination and typhoid serum yesterday.

The daily schedule of the Fourth Indiana is as follows:

Provost Marshal's Threat

The provost marshal at Washington in charge of the draft has practically threatened to make exemption rules more stringent if there are not fewer unfounded claims for discharge.

"This state of affairs," he says, referring to the fact that as high as 80 per cent of the registrants are asking discharge on the grounds of dependents, "greatly increases the burden of the local boards for, if so high a percentage of registrants claim exemption, only the uncompromising action of the local boards can prevent a new regulation on the subject of dependency which shall reduce discharges for dependency to a far more restricted class and to very necessities and clearly defined circumstances."

In other words, the men who are really entitled to discharge on the ground of dependents, according to the present interpretation of the regulations, will have to suffer in the future for the wrongs of those who have no claim for discharge. The statement is in the nature of a threat. "It is thus apparent," says the provost marshal, "that the filing of these improper claims will react directly and injuriously on persons whom the present regulations were designed to protect, and that the welfare of persons who have filed bona fide claims under the present generous clauses of the regulations is seriously imperiled by persons who have filed claims without merit, and that the only protection of persons whose cases are within the meaning of the present rules lies in the power of the local boards to refuse exemptions in every doubtful case."

Additional instructions received yesterday, however, disclose that the registrant refused an exemption has recourse before the district board, not only for a rehearing of his own case, but to reopen the case of another discharged before him whose claim he believes to be unjust. This is perfectly fair and impartial. There may be many a man refused a discharge who believes with all his heart and soul that another man who was exempted had no more right to a discharge than he.

There should be no criticism of the local selection board. Before giving voice to any adverse opinions you may have, it is the duty of every loyal citizen to place himself in the position of the selection board. It should be reasoned out that the boards have very solemn obligations which they have given oath to perform. Their decisions must be coldly impartial. They can not be otherwise else they will be violating the spirit of patriotic fairness which demands that the conscription law

be enforced without any fear, with a justice that knows no favoritism and is deaf to all pleas. It is very essential that the labors of the board be lightened rather than made irksome by irritating remarks. They are not the authors or the interpreters of the law. Their work is largely mechanical in following certain set lines which have been laid down for them. They are performing a patriotic service for the country in acting in the capacity they are. It is nothing less than the greatest patriotism to help the selection board in every way possible and do nothing to hinder it.

It is the popular pastime of some newspapers to "jump on" congress. They know it is safe because congress is a body of men without a spokesman and that there is no liability of "backfire." Their favorite sport is criticizing congress for being slow to enact war measures. Congress is supposed to be and should be a deliberative body. It is composed of men elected by the people who expect the most judicious and wise action on all legislation. In such a stupendous task as the United States is now engaged, it is not so much haste that is desired, although haste is needed if not at the expense of the thing to be accomplished, but a steadfastness of purpose and a determination to enact measures that will best enable the United States to win the war. Such things can't be done overnight.

Henry Clews, the New York financial authority, sees a sound financial situation and great industrial activity arising from war expenditures of \$10,000,000,000 or more. That 10 billion ought to make someone active in the scramble to get a share of it.

War hasn't all been transferred to the trenches. It still rages over the back fence.

SOCIALISTS TO BE DENIED PASSPORTS

Allied Nations Will Not Permit Them to Attend Peace Conference at Stockholm Next Month

KERENSKY IS OPPOSED TO IT

(By United Press.)

London, Aug. 14.—The allied nations have agreed that no passports shall be issued to socialists desiring to attend the international conference, scheduled in Stockholm next month, at which time peace was to be discussed. Bonar Law, chancellor of the exchequer in the house of commons announced the United States, France and Italy had agreed with England that passports permitting attendance at the conference would be withheld.

Invitations to the conference were originally issued in Russia but Premier Kerensky has declared opposition to the session. Whether passports will be given Russian delegates is not known. Arthur Henderson, who resigned as labor member of the British cabinet, as a result of his activities regarding the conference, severely arraigned Premier Lloyd George in a personal statement in the commons. Henderson charged the war cabinet with double dealing, and especially in connection with his visit to Paris.

SAMMIES TO HAVE BRAIN SPECIALISTS

Cantonment Camp For New Army Will Be Under Direction of Surgeon General Gorgas

'QUITTERS' TO GET TREATMENT

His Plans Call For The Enlisting of 25,000 American Physicians Within 12 Months

By GEORGE MARTIN
(U. P. Staff Correspondent.)

Washington, Aug. 14.—The draft Sammies will take their own brain specialists right along with them when they go to France.

That was one of the things Surgeon General Gorgas made clear today when he told how Sammie's aches, pains, wounds, germs and brainstorms will be taken care of.

As for germs, the General is going around to every one of the cantonment camps in this country and tack up one of his well known and effective "No Admittance" signs.

It was Gorgas, who drove the yellow jacket out of the South, made the Canal zone safe for ditch diggers and put the finishing touch on the bubonic plague rats of New Orleans. He is now in supreme command of America's surgical and medical war plans for the Sammies at home and abroad.

"We intend to make our military cantonments as safe as medical science knows how," he said today.

"We have put the best brains of the country on the job. We have organized a staff that you couldn't equal in any ten hospitals in the United States."

There will be specialists on everything. Major J. E. Goldthwait, for instance, the wizard of bones and joints. The Mayo brothers of Rochester, Minn., are Majors under Gorgas, too.

Regarding mental disorders among the men, which he characterizes as "very common in this way," General Gorgas said:

"We will take special care of these. Dr. Pearce Bailey is working on that in our department with the rank of Major.

"Mental troubles are among the most common to be dealt with in the modern armies. So much so that European hospitals have had to specialize in them.

Shell shock, of course, requires scientific treatment. The best results are obtained when the patient is kept under observation without sound of the gun.

"It used to be that a coward or a quitter was rewarded with a kick or given heroic treatment in the guard house. Our prevailing practice, as is the case in all modern armies, will be in the majority of cases to give the needed mental and medical treatment to these men who can't live up to their duties as soldiers."

General Gorgas' plan called for the enlisting of the services of 25,000 American physicians and surgeons within the next 12 months.

He Couldn't Understand

A few days ago the sanitary detachment was at a public gathering and the little son of one of the officers of the detachment saw his father.

"Mother, can't I go stand with daddy?" the little boy asked.

"You had better not," replied mother, not quite sure about military discipline which is all so new to Americans.

"But I would like to know why I can't go stand by my OWN daddy," insisted the little boy.

That was enough. The mother told him to go ahead, discipline or no discipline.

WEATHER FOR WEEK.

Washington, Aug. 13.—Unsettled weather with showers is indicated for the first half of the week, and fair weather for the latter half. The temperature will be below the seasonal average.

Mrs. Frank Mock has sold the property owned by her in North Morgan street to Dr. F. I. Wooden. The consideration was \$2,250.

AMERICAN COAL MINERS NEEDED

Lens Will Fall Sooner or Later And Then France Will Find Use For This Class of Labor

DEPRIVED FOR THREE YEARS

Is One of the Richest Deposits France Possesses—Must Re-build Shafts

By WILLIAM PHILIP SIMMS
(U. P. Staff Correspondent.)

With the British Armies in the Field, July 25 (By Mail)—Sooner or later Lens, capital of France's "Black Country" or coal belt, will fall before the ever-tightening pressure put upon it by Sir Douglas Haig. When this day comes America can render France and her allies no greater service than to send immediately to this region the experts necessary to put the coal mines in order in the shortest possible time.

For three years France has been deprived of the richest coal deposits she possesses. In the Loire, Burgundy, Nivernais, Gard, Blanz, d'Arbin, Decazeville and Carmaux, it is true there are coal mines but these are not to be compared with those in the northern part of the country, around Lens. This deposit runs from east to west, from Belgium to Flechinelle, in France and since the German occupation it is only the extreme western end of it which the French have been able to work. And this is the hardest to work, being deep below the surface. Whereas in Belgium the coal is practically on top of the ground, at Anzin it is 120 feet down and deeper the further west it runs. At Douai it is 480 feet deep; at Flechinelle about 1,800 feet.

The vein of coal from the Belgium frontier to Flechinelle is about 65 miles long by 10 miles wide. Prior to the war of the 39 millions of tons extracted from French soil, three-fifths came from here or about 25,000,000 tons. Even with this, France has always been compelled to buy from the outside almost as much coal again as she produced, half of which came from Belgium—from the country around Mons, Charleroi and Liege, seized by Germany as her very first act of war.

It is this country, around Lens and behind Lens to the east, which the Prussian warlords are defending regardless of the cost of German lives. And here it is that British pressure is growing ever stronger. Every blow struck this summer has yielded a net gain in the direction of these coal fields and a retirement anywhere from Arras to the sea would be more injurious to Germany from an economical point of view than that at any other part of the Western front.

Fighting in this country is extremely difficult. On the sea where British Tommies have recently made their appearance, there are sand dunes which make trenches almost impossible. Fighting there is like fighting in the heart of the Sahara Desert. Further south along the line is water, water everywhere, spread out over the flat country. Everybody knows what the country about Ypres is like, and around Messines Ridge while below that comes La Bassée and Lens, with their mountains of slag and cinders, called "Crassiers" rising nearly 200 feet over the level country around about; and the "fosses" or mines, with mining buildings cluttered about them, all affording the best possible obstacles from the defender's viewpoint, hiding field guns, howitzers and especially machine guns.

Such is the country over which the British are now fighting. If the Germans are beaten back out of the coal country they will do as they have done already at Lens: Destroy the mines by blowing them up or flooding them, or both. But American miners are said to be the best to be had and certainly the United States can do better than to send hundreds of them over here to reclaim the ruins for even if the Prussians do their work so completely as to render the mines useless for the remainder of the war, reconstruction of France and Belgium will depend largely on fuel supply.

WAR WORRY WORN WELL BY WILSON

President Keeps Himself Fit By Regular Play On Golf Links And Mild Exercise

HE ALWAYS ARISES EARLY

Has Plenty of Cares And Burdens But He Is Not Breaking Down Under Them

By GEORGE MARTIN
(U. P. Staff Correspondent.)

Washington, Aug. 14.—If you have pictured President Wilson careworn, haggard and breaking under the strain of his tremendous war problems, change the portrait. It's way wrong.

On one of his unannounced strolls from the White House to Secretary Baker's office in the State War & Navy building he gave press men an opportunity for a good close-up of Woodrow Wilson in war mood.

Swinging out from Baker's room and down the tiled corridor, the President had more the manner of a man who had just concluded a pleasant chat with an old orony about nothing in particular, than of a nation's leader who had just discussed a vital world problem whose solution he must find.

Clad in snowy linen coat and trousers, a flat-topped, broad-brimmed straw hat set squarely on his head, the President moved at a brisk pace toward the stairway. There was spring in his step. His smile was genial, his cheeks ruddy with the glow of health.

Realizing the vital importance of keeping himself fit, the President is exceedingly careful to play with his work.

Early every morning, long before most Washingtonians are so much as turning over for their pre-getting-up nap, the President is out in his knickerbockers and off around the golf course. Mrs. Wilson usually accompanies him. A couple of hours later they may be seen rolling into the White House grounds in one of the big cars with the golden spread eagles in a circle on the door panels.

Golf, walking and other mild forms of exercise take care of the President's physical health. For mental diversion and rest he turns from the problems of war to intricate, complex and quite thrilling detective stories.

Most of his newspaper reading is done for him by Secretary Tamm. Thousands of papers from all over the country are carefully gone over for news of interest to the White House; and whatever is deemed sufficiently important to bring to the President's personal attention he gets in the form of pasted up clippings at the proper time.

He has cares and worries and burdens galore, has the President, but he isn't breaking down under them.

PURCHASING BOARD TO MEET

FLOWER OF GUARD GOES ABROAD NEXT

"Rainbow Division," 19,000 Strong, Including First Indiana Artillery, Will Soon be Sent.

COMPRISE OF 42 DIVISIONS

First Indiana Made Up of Bloomington, Lafayette, 2 Indianapolis And 2 Fort Wayne Batteries

(By United Press.)

Washington, Aug. 14.—America's "rainbow division"—19,000 strong—will be the next to see service in France.

Comprising national guardsmen representing states from New York to Texas and California, the new forces will soon be sent abroad.

The 150th Field Artillery (First Indiana Artillery) National Guard will be part of the division, the war department announced today. The new forces comprise the 42 divisions assembled under the recent reorganization plan. It represents the flower of guard troops from all parts of the country, including cavalry, infantry, engineers, machine gun and artillery companies—hence the name "rainbow division."

Major Douglas MacArthur, engineer, former press censor, will be chief of staff of the "rainbow division."

Brigadier General W. A. Mann, chief of the militia bureau, has been selected as the division commander. The troops in the division will be drawn from twenty-six states and the District of Columbia.

TYNDALL HEADS HOOSIERS

Indianapolis, Ind., Aug. 14.—The First Indiana Field Artillery is commanded by Col. Robert H. Tyndall of Indianapolis. It is made up of Battery A, Indianapolis; Battery D, of Fort Wayne and Battery C, of Lafayette, forming the first battalion of which Maj. Guy A. Wainwright is commander.

The second battalion, commanded by Major Solon J. Carter, is composed of Battery B of Fort Wayne, Battery E of Indianapolis, and Battery F of Bloomington.

About 1,225 Indiana troops, including officers, are affected by the order. These troops are now mobilized at Fort Benjamin Harrison. The Indiana troops have been pronounced by military officials as equal to the best in the country.

Mr. and Mrs. William Keck entertained the Misses Sadie, Maggie and Anna Gilson and Mr. and Mrs. James Worth and daughter Leah at dinner today, in honor of William Worth, who is a member of the sanitary detachment.

At Pike's Peak and wherever else tourists go
—they find "A. B. A." Cheques readily accepted—by railroads, hotels, and business houses.

The only identification the holder need furnish is his countersignature on each Cheque in the presence of the person to whom it is presented.

These Cheques are safe because until countersigned they are of use only to the owner, and unsigned Cheques which are lost or stolen may be replaced.
